Hi [REDACTED] - happy to look into this and we will share a recommendation tomorrow if that works?

Hi team,

[REDACTED] received this interview request from [REDACTED] I did a quick search of the website, and it looks like [REDACTED] data has been used in some decent publications. Can you all take a look and see if the opp is worth pursuing?

Thank you!

Hi [REDACTED]

I hope you are well. Apologies I don't have your work email.

My firm [REDACTED]com conducts capital markets research in FX topics and am presently writing a piece on DLT in FX, highlighting some of the initiatives and profile the work of some firms. I know a fair amount of what Ripple is doing, but would like to have us organize a briefing call to bring me up to date. The goal is to gain a better perspective of how the business has evolved in the past few years that I may relay that information to my institutional audience. If it makes sense, I'd be amenable to write a profile on Ripple.

Could you please let me know a good day/time for a call this or next week?

Kind regards,

[REDACTED]
